The Serendipity Engine

Cultural Heritage Sources

Arkyves is a collection of sources for the study of the History of Culture. It is an aggregated database, but it does much more than passively wait for your research questions. It actively stimulates the items in its catalogue in ever-changing

Click the **Lists** menu button to go to the page where you can create a new list or edit an existing one.

Look at the topsy-turvy world

Find some pictures of saint Francis, or of the effects of drinking too much, or of people wearing spectacles, reading and writing, or digging. Gather material for a study of childhood or old age, of the poor or the rich, or simply of cats, dogs, or wild animals or foodstuffs ... or a tableau of cats with fishes?

LISTS

- Carrying on the back
- Helpfulness and Cooperation
- Parental and filial love
- Visible poverty
- King alcohol
- Verticals and Twisters
- Friendship
- Aspects of vision
- Adages
- Hobby-horse
- Departure and Arrival
- Transformation
- Lifting the hat, crown, cap, ...
- Old age
- The labours of Adam
- Gender matters
- Sweat of thy face
- Piskijkers
- Vrouwenlisten

Options on a **List** page (to be explained on the next few pages):

- * **Public/Private tickbox**: tick if you want to allow others to see your list (and help you with it)
- * **Edit Description**: select if you want to edit the description of the dataset
- * **Delete List**: use with care – only if you want to remove a whole list
- * **Remove ticked items**: use to remove individual items from a list
- * **Raw**: see the underlying source data (in txt-format for easy copying)
- * **URLs**: the URL's of the items in your list
- * **Images only**: just the thumbnails of the items in your list

Remove

Edit the description of your list.

You may write one or two lines or a text of more substantial length (think: blog entry length, short essay).

You may also do some elementary formatting using Markdown as the edit area is Markdown sensitive.

Clicking the **URLs** button will display the Arkyves URL's , ending in the ID's of the items. N.B.: the URL's shown here are provisional. Eventually 'new' will be replaced by 'www'. The **Images only** button will merely show the thumbnails.

Carrying on the back

Documents that share themes like "carrying on the back", "carrying on the shoulders", and their permutations...

Serendipity trails: Visible poverty

The poor, the handicapped, beggars, vagrants and pariahs; the lower strata of society are well represented in Arkyves. We meet them in many different contexts and their status and circumstances may be expressed with a variety of means.

The use of visible deformities like a missing leg or a hunchback to suggest poverty is a commonplace that would warrant systematic research.

Giving alms, obviously, is a concept that presupposes the presence, or at least existence, of poor people as do biblical stories involving the poor. Have a look at the way the filters are used here in combination with a text search, and you can probably figure out how to combine a text search for *poor*, *poverty*, and the Dutch word *armoe** with a structured filter that limits the search to scenes from the Old Testament. Reverse the filters and your query limits itself to the New Testament scenes

Poverty as an abstract idea we encounter in the Adages collected by Erasmus and in quite a few emblems, perhaps most strikingly in the emblems that deal with the obstacles the talented but poor student has to overcome.

For further development: it is possible to turn a list into an 'essay', and to embed it in other lists.

In this way an essay in multiple 'chapters' can be created.

Whether this will turn out to be a workable platform for electronic publication in a more general sense remains to be seen.
